

This was a great success and parents found it very useful and informative!

All parents who attended 'Fun with Phonics' were asked to comment on their session in school. Here are some of the wonderful comments!

It was very informative and helpful in terms of ways to prepare your child for the screening. Showed how creative and dedicated the teachers are with the activities and resources they've made.

Very helpful, good to see how my child does it in class and the handouts and websites should be good.

I really enjoyed spending the morning learning with my child. The information was very useful and I look forward to doing some of the activities at home with my child.

I have been very interested to see how my child is being taught and a lot of useful information especially about Bug Club and Phonics Play.

Very interesting to see what children learn in school and also learnt stuff myself so I could help my child at home. Keep up the hard work.

I enjoyed every bit of the phonics morning because it gave me a chance to spend some time with my child, learn things and do some fun activities.

A very cool way of spending time with my child in school.

I think it is a really good idea so parents can see their child's progression.

The phonics morning was really helpful.

I really enjoyed the phonics morning. It was made fun and had lots of different activities so they didn't get bored.

The children really enjoyed themselves.

The session was fun and relaxed which made it enjoyable for my child to learn their phonics.

Really helpful to see how phonics is taught. Great advise given on revising for the phonics test.
